California Proposition 65

In alignment with the corporate values of E-T-A Elektrotechnische Apparate GmbH and the principles set forth in our Supplier Code of Conduct, we are committed to conducting business with partners who support sustainable development and demonstrate responsibility in ethical, social, environmental, and economic aspects.

California Proposition 65 ("Safe Drinking Water and Toxic Enforcement Act of 1986") requires businesses to provide warnings regarding significant exposures to chemicals known to the State of California to cause cancer, birth defects, or other reproductive harm.

About the Proposition 65: https://oehha.ca.gov/proposition-65/about-proposition-65
Proposition 65 Chemical List: https://oehha.ca.gov/proposition-65/proposition-65-list

E-T-A Elektrotechnische Apparate GmbH ensures that its products comply with all applicable regulatory requirements, including but not limited to RoHS and REACH. In addition, we consider further environmental and sustainability-related requirements that may not be legally mandated but are expected by our customers, such as those related to circular economy and recycling.

Within our B2B business relationships, we place strong emphasis on identifying and minimizing potential risks along the supply chain at an early stage. Our objective is to avoid the use of chemicals, materials, and substances that may:

- pose a risk to the environment or ecosystems,
- adversely affect the health of employees, customers, or end users, or
- negatively impact end-of-life handling, recycling, or lifecycle performance.

To ensure compliance with these requirements, E-T-A Elektrotechnische Apparate GmbH systematically collects product- and material-related data along the supply chain. This includes in particular:

- detailed material information,
- evidence of compliance with relevant legal requirements,
- confirmations regarding regulatory substance requirements,
- conformity information in an international context,
- basic information on the properties and status of components.

This information forms the basis for transparent communication with our business partners, as well as for compliance with international environmental and product requirements in the B2B environment.

Statement on California Proposition 65

With reference to California Proposition 65 (Prop 65), administered by the Office of Environmental Health Hazard Assessment (OEHHA), E-T-A Elektrotechnische Apparate GmbH hereby declares for all currently marketed products and product series within its B2B portfolio:

- To the best of our knowledge, and based on available supplier and material data, our products comply with the requirements of California Proposition 65.
- Under normal and intended conditions of use, our products do not release any substances listed on the current Proposition 65 chemical list.
- Any substances potentially contained within our products are integrated into the material structure and are not present in a free or exposable form; therefore, under proper handling conditions, no exposure risk via inhalation, skin contact, or other routes is expected.

This declaration is based on the current state of knowledge and on information provided by our suppliers.

In summary, it is assumed that products manufactured and distributed by E-T-A Elektrotechnische Apparate GmbH do not pose a risk of exposure to chemicals identified by the State of California as causing cancer, birth defects, or other reproductive harm when used as intended.

Yours sincerely
E-T-A Elektrotechnische Apparate GmbH
